Professional Experience

Freelance Frontend Developer

(Half-time) May 2023 - Present

Personal project

- I used Vue.js and JavaScript to create an application, optimizing performance with specific Vue.js libraries.
- I worked in a team, collaborating closely with a UI/UX designer, and we used Astro to develop the landing page.
- Implemented Git Flow and SCRUM for efficient project management.
- I integrated the frontend with the backend using REST API architecture.
- I used tools like SASS and Tailwind CSS to improve the styles and design of the project.

FullStack Developer

Feb 2023 - Ago 2023

Original Protostar Marketing

- Determined technologies such as Vue.js, React and Next.js to create websites according to client requirements.
- I collaborated with the web design team and provided support in the creation of APIs (with REST API architecture) with Node.js and Express in the backend.
- I performed database analysis using MongoDB.
- I coded, designed and laid out websites according to the company's specifications.
- Provided ongoing support and maintenance.
- Focused on providing an excellent user experience, I acquired UI/UX skills.

Frontend Developer

Ago 2022 - Feb 2023

WAYAKNA SA de CV

- I acquired skills in creating web pages with Vue.js and designing responsive user interfaces.
- Experience in creating and maintaining API's with Python.
- Use of SASS and Bootstrap to design websites and web applications.
- Ability to conduct client meetings.
- Work in multidisciplinary teams and deliver quality solutions, committed to excellence and exceptional results.
- Created page layouts with Figma, developing UI/UX design skills.
